

## Feeding Time at the Farm: Use Place Value and Properties of Operations to Subtract (Paperback)

By Julian Delrose

Rosen Classroom, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book. Engaging story lines and relatable contexts assist readers in understanding the fundamentals of numbers and operations in base ten. Students will learn how to extend the count sequence and gain an understanding of place value in order to apply that understanding to addition and subtraction equations. Age-appropriate text and eye-catching visuals make these concepts easy to understand for beginning math students. Cows, pigs, and horses all need to be fed, and that task can be used as a lesson in place value, too. Readers will learn how to subtract multiples of ten as a way to solve subtraction equations. This volume satisfies CCSS Math Standard 1.NBT.C.6. This book should be paired with Feeding Farm Animals (978147772136) from the InfoMax Math Readers Program to provide the alternative point of view on the same topic.
