Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Twenty - five years ago, at the height of the counter - culture movement, several hundred hippies drove their school buses into southern Tennessee and founded America s largest, modern - day intentional community, The Farm. In its heyday, the community was home to over 1,200 optimistic young people and the young - at - heart. Their purpose for coming together was to experiment with alternative lifestyles that could help raise the standard of living for impoverished people around the world while conserving the planet s resources. The results of these experiments were not always predictable, but were always interesting, and created lasting bonds among community members that are still strong today. The Farm remains a vibrant, working environment for change. Why has it lasted so long? Discover the answers as members past and present recount some of their more memorable experiences.
