Strategic Aggression - Conditions That Could Trigger Aggressive Military Action by the People's Republic of China (Paperback)

By U S Army Command and General Staff Coll

Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Over the past two decades, China's rapid military expansion has raised concern among U.S. policy makers and defense officials. While it publicly claims a policy of peaceful development, China continues to develop high technology weapons systems and force projection platforms that are widening its military advantage over its neighbors and could possibly deny American military access to the region in the event of conflict. China's true ambitions and long-term strategy are difficult to discern, as it is intentionally secretive about its military development and foreign policy. Despite its military buildup and secretive nature, China has not yet shown any intention of conducting strategic military aggression against other nations. However, could China's non-aggressive posture change? And if so, what emerging conditions might indicate that such a change is taking place? This study uses a case study of interwar Germany to determine the factors that led to Germany's strategic aggression, and assesses modern-day China against those factors. Interwar Germany embarked on a rearmament program that produced the massive military force Hitler used to initiate World War II...
