ANIMAL BREEDING AND GENETICS- MODULE FOR OPEN AND DISTANCE LEARNING

ANIMAL BREEDING AND
GENETICS- Module for Open
and Distance Learning

LAMBERT
ACADEMIC PUBLISHING

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | This is an introductory course to Animal Breeding and Genetics. The course targets students who study animal production. The course describes the theories and practices in animal breeding as they relate to animal production systems. The history of genetics and animal breeding, chromosome structure, number and variations are discussed. The gene and genotype, genetic code, Mendelism; fundamental principles of inheritance, types of gene actions, values and means, repeatability and heritability, variations in...

Reviews

This is basically the finest publication i actually have go through till now. We have read and i also am confident that i am going to likely to read through again once more in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Prof. Adell Lubowitz**

Completely among the best pdf I actually have possibly read through. It is probably the most awesome pdf we have read. You wont really feel monotony at whenever you want of your time (that's what catalogs are for about in the event you ask me).
