## Lick Observatory Bulletins Volume 8

## By Lick Observatory

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1916 Excerpt: . a few stars north of the zenith were measured. 6. Sensitivity Tests on Stars.--The sensitivity of these thermocouples was tested by means of an artificial star, and also when they were mounted in the telescope and exposed to a star such as Vega. It was found that the radiation sensitivity of the two elements in No. 7 (1, bismuth-bismuth and tin alloy; 2, bismuth-platinum) differed but little in spite of the fact that the thermo-couple containing the bismuth tin alloy had a 50 per cent higher thermo-electric power. The best receiver, Xa, (Bi-BiSn; 0.38 mm. in diameter) was perhaps 10 per cent more sensitive than the others in container No. 7. This receiver, recorded as No. 7-lo in the appended tables, was therefore used for most of the work (until the quartz tube containing the calcium was broken), owing to the fact that container No....

## Reviews

The most effective publication i at any time read. We have study and i am sure that i will likely to read yet again once again in the foreseeable future. You will not truly feel monotony at anytime of your time (that's what catalogs are for about in the event you request me).
-- Mr. Rafael Hoeger

Comprehensive information! Its this sort of excellent read. I could possibly comprehended every little thing out of this published e pdf. You wont sense monotony at at any moment of your time (that's what catalogs are for about when you ask me). -- Prof. Mauricio Howe III
