TAPPING THE SOURCE: INSIDE UF S WATER INSTITUTE (PAPERBACK)

Gatorbytes, 2016. Paperback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. The University of Florida has an ambitious goal: to harness the power of its faculty, staff, students, and alumni to solve some of society s most pressing problems and to become a resource for the state of Florida, the nation, and the world. Florida has 51,858 miles of rivers and streams, more than 2 million acres of lakes and ponds, 11.4 million acres of wetlands, 4,437 square miles of bays and estuaries, and 8,436 miles of coastline. But these water resources face myriad threats. Tapping the Source takes us inside the UF Water Institute, where talent from throughout the university address complex water issues through innovative research, education, and public outreach programs. Interdisciplinary teams from the School of Natural Resources and Environment, the School of Forest Resources and Conservation, Environmental Engineering Sciences, Geological Sciences, Soil and Water Science, and other departments develop new scientific breakthroughs, creative engineering, policy and legal solutions, and pioneering educational programs that are renowned for addressing state, national, and global water-resource problems. The teams work to manage nitrate flows into the north-central Florida springs, evaluating whether reduction of these nitrates alone will be enough to return the springs to their natural state. They assess the impact of pollutants and other stressors on the aquifer and look at historic rainfall averages and the abundance of algae and grazers, like freshwater snails, present in the ecosystem. Ultimately, they attempt to balance the demand for drinking water for a growing population and irrigation water for agriculture with the simultaneous pressures to prevent pollution and leave enough water for natural ecosystem functions. The stories chronicled in Gatorbytes span all..
