Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. These are the TRUE accounts of the OSS and CIA. These studies were expertly written for classified use of CIA personnel. I have not edited these documents. All of these studies were classified from CONFIDENTIAL TO TOP-SECRET. Studies include; WW2 secret ops, covert action, truth drugs for interrogation, cover in unconventional operations, CIA in the academic world, the covert collection of scientific information and spies. This is just a sampling of what is included in the book. The United States Intelligence community as known to the public is comprised of 17 agencies that work separately, and at times, in concert to conduct intelligence activities in the field of foreign relations and national security. Members of this community include intelligence agencies, military intelligence, and civilian intelligence and analysis offices within federal executive departments. Most intelligence operations are conceived and carried out by patriots in the interest of national security or during time of war. However, not all intelligence operations were successful and many were based in the theory that the end, justifies the means. At times, distasteful actions and assassinations are undertaken to safeguard the masses or protect national interest. This is not to say that all governmental intelligence operations were undertaken to safeguard the country and our freedoms. Some were ordered by various presidents to crush their political rivals. Interestingly, the CIA is notorious for secrecy and more often than not, the agency refuses to release documents requested in a Freedom of Information Request (FOIA) or under a Mandatory Declassification Request (MDR). Here s the interesting twist. These studies contain a wealth of details and informative footnotes identifying the source. Even if you filed a FOIA for all the documents contained in...
