MEASURES OF WEIGHT. The Unit of Weight--Based on the Linear Unit--Volume, Capacity, and Weight--A Volume of Water as a Unit of Weight--Qualities of Water--Precautions to be Observed--Temperature--Barometric PressurePurity of the Water--The Temperature of Containing Vessels. THE UNIT OF WEIGHT. We have now got a plan for a new system of measures of length, surface, volume, and capacity, and all these measures are based upon our first unit of force. But we are still without one very important part of the new plan which we propose to make. We are accustomed to speak of Weights and Measures, and so far we have said nothing at all about those measures which we call Weights, and which are really Measures of Weight, it is to the measures of weight, or Weights, that we must now give our attention. Can we get our measures...
