

Sustainability and the Built-Environment

Filesize: 5 MB

Reviews

Completely among the best pdf I actually have possibly read through. It is probably the most awesome pdf we have read. You wont really feel monotony at whenever you want of your time (that's what catalogs are for about in the event you ask me).
(Prof. Martine Lesch)

SUSTAINABILITY AND THE BUILT-ENVIRONMENT

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Roots, Origins and Lessons Learned From The Vernacular Architecture of the Mediterranean | This is a call on all architects and those involved in the building industry to take responsibility for changing the impact that their buildings have on the environment. They may live for a few decades after their design and subsequent construction, however, the structures will stand for centuries at a time where energy prices, availability and resources are not predicted and might cost a fortune. It is time to take responsibility for our actions in order to minimise environmental deterioration. Our ancestors exploited global resources sustainably. Now it is our turn to take steps to provide a world for future generations which is not environmentally degraded. Knowledge, solutions and techniques are all there in the vernacular architecture, yet they need to be rediscovered and accompanied with the available technologies in order to produce an environmentally conscious modern architecture. | Format: Paperback | Language/Sprache: english | 172 pp.
