What drives the price of crude oil? Why is it that when the price of a barrel of oil goes down on the financial markets we don't feel any real savings at the gas pumps? Why do we pay more for gasoline in the summer, and not in the winter? The international best-selling author of this book, Ashbee A. Bakht has over a decade of experience in the resource industry as a commodities trader. Ashbee holds a degree in psychology from Brock University, Canada with further post graduate training in the extractive resources industry from the prestigious Norman B. Keevil Institute of Mining Engineering at the University of British Columbia, Canada. Ashbee has written this book in simple English to help you understand one of the world's most valuable commodities, crude oil.
