Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Plebs in Cicero s Day: A Study of Their Provenance and of Their Employment After this brief summary of the requirements of military service, we proceed to try to form an idea of the proportion of men who were actually serving at a given time. The figures for ten successive years are given below. They err on the side of understatement. Anyone looking over the sections in Livy devoted to the yearly assigning of troops will notice that the statements are fuller and more accurate for the Roman legions than for the Allies. Clearly Livy often fails to enumerate the official contingents of the latter, although in his narrative of the year s campaigns he may refer to their presence. The total number of troops for any one year, therefore, must often fall short of the truth. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
