Sasquatch Books, United States, 2015. Paperback. Condition: New. 35th ed.. Language: English . Brand New Book. Now in its seventh edition, this complete guide to organic vegetable, herb, and flower gardening addresses issues of soil, seeds, compost, and watering. Growing Vegetables West of the Cascades has evolved from a self-published pamphlet into the master guide to organic gardening over the past thirty-five years. Steve Solomon, who founded the Territorial Seed Company, was one of the early proponents of organic gardening, and the first to codify and refine the best practices of small-plot vegetable gardening in the Pacific Northwest. The approaches to understanding and preparing soils, composting, chemical-free fertilizers, efficient uses of water, and garden planning are universal to any climate or region. Solomon gets specific in his extensive advice on growing specific crops--from tomatoes and beans to kale and turnips--in the gentle maritime Northwest climate. The book has been thoroughly updated in this new edition and includes a new formula for complete organic fertilizer and how to tweak it for a variety of different soil conditions, how-to sections for herbs and ornamental plants, new organization for better usability, updated sources for appropriate seed suppliers, and info.
