

The Practice of Child Therapy

By -

Routledge. Paperback. Condition: New. 608 pages. Dimensions: 9.8in. x 7.0in. x 1.3in.Consistent with previous editions, this book assembles in a single volume summaries of the treatment literature and treatment procedures of the most common childhood behavior disorders facing persons who practice in applied settingsclinics, schools, counseling centers, psychiatric hospitals, and residential treatment centers. Its 16 chapters cover the historical context of child and adolescent therapy; obsessive compulsive disorders; childhood depression; childhood fears, phobias and related anxieties; attention-deficit hyperactivity disorder; academic problems; conduct disorder; somatic disorders; autism spectrum disorder; intellectual disabilities; children medically at risk; sexual and other abuse of children; child and adolescent psychopharmacotherapy; prevention; and child therapy and the law. Key features include: Treatment OrientationAlthough some chapters include a discussion of theoretical issues, the primary emphasis is on intervention techniques and strategies for changing various behavior and learning problems. Case examples are often used to illustrate treatment procedures. Empirical OrientationWhile most authors have adopted a broad-based behavioral or cognitive-behavioral orientation, they were encouraged to review the entire treatment literature and to construct their presentations on the basis of empirically supported treatment techniques and procedures. Psychopharmacotherapy ChapterThe chapter on child and adolescent psychopharmacotherapy focuses on psychopharmacological interventions rather than on...
