Reviews

This written publication is fantastic. I am quite late in start reading this one, but better then never. You will not feel monotony at at any time of your respective time (that's what catalogues are for concerning should you ask me).
(Tevin McClure)

AIR POLLUTION: REDUCTIONS IN EPAS 1994 AIR QUALITY PROGRAMS BUDGET: RCED-95-31BR

Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO provided information on: (1) reductions in the Environmental Protection Agency's (EPA) fiscal year (FY) 1994 budget for its air quality program; (2) how EPA allocated the reductions among the program's various components; and (3) how the reductions affected EPA efforts to meet certain requirements and deadlines established by the Clean Air Act Amendments of 1990. GAO found that: (1) EPA reduced the air quality programs FY 1994 budget by 32 million; (2) EPA cut 25.4 million from the program's budget to comply with the 81 million reduction in the overall EPA budget for contracts, grants, personnel, research, and other activities; (3) EPA cut 825,000 from specific air quality programs and reprogrammed 5.7 million to fund high-priority initiatives; (4) the reductions significantly impacted some individual program components; (5) although 16.6 million was restored to the air quality programs budget, the funds were received too late to meet 1994 needs and were carried over to FY 1995; (6) EPA had difficulty in allocating the reductions because Congress and the Administration imposed certain constraints on its budget reduction options, and unprotected programs absorbed a greater proportion of the reductions; and (7) EPA will miss some important deadlines because of these budget reductions, particularly those for issuing pollution control standards and rules. This item ships from La Vergne, TN. Paperback.
