DOCUSIGN: THE IPO HUSTLE? WOULD YOU TRUST YOUR MONEY TO THESE GUYS? (HARDBACK)

Dog Ear Publishing, United States, 2014. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.What started out as a simple two-year corporate rental of our northern California Bay Area home turned into an ongoing nightmare. The first problem was dealing with insurable damages. The second problem became overwhelming to us as landlords, when we unwittingly became embroiled in unearthing international accounting fraud and deception, involving some of the biggest names in the technology industry, along with current executives and board members of DocuSign. Our four-year investigation has exposed what actually happened, and we are about to share and expose those who were involved. Four of those people currently work with DocuSign. DocuSign is the only company in the history of the United States to have four current officers, (including two current board members), being recently involved in a combined total of over twenty class action lawsuits for the identical charges of securities fraud, accounting fraud, and misleading investors. Fred Weaver works worldwide, often on complex and sensitive investigations. His experience crosses several industry sectors and geographies. He advises and provides investigation and fraud prevention support to governments, companies and organizations. As an attorney for this case, In Pro Per, Fred Weaver exposes what is about to become the largest international fraud, dwarfing that of Bernie Madoff s recent scam. He shares and reveals enough case secrets to make DocuSign clients and investors re-examine their conscience. Fred Weaver s piece of legal work, is destined to be studied for decades to come. A must-read for anyone who is currently using or investing in DocuSign; for anyone interested in justice and absolutely required reading for anyone pursuing law or criminal justice as a life passion.
