

Comparison of Mold Exposures, Work-related Symptoms, and Visual Contrast Sensitivity between Employees at a Severely Water-damaged School and Employees at a School without Significant Water Damage

By National Institute for Occupational Safety and Health U.S.

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 52 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. The National Institute for Occupational Safety and Health (NIOSH) received a request for a health hazard evaluation at the Alcee Fortier Senior High School (AFSHS) in New Orleans, Louisiana. Employees were concerned about exposures to mold and lead paint. The employees reported difficulty breathing, chronic sinusitis, and immune system problems. This report contains NIOSH's findings and recommendations. This item ships from La Vergne, TN. Paperback.

Reviews

It is one of my personal favorite pdf. Of course, it really is play, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
