The Preparatory Manual of Explosives

By Jared Ledgard

Uvkchem, United States, 2014. Paperback. Book Condition: New. 4th. 274 x 206 mm. Language: English Brand New Book ***** Print on Demand *****.The Preparatory Manual of Explosives Fourth Edition is a massive upgrade from the third edition, and has been completely re-written. The material has been completely re-done, with more emphases on detailed preparatory methods, safety and hazard info, molecular information and data, structures and equations, and new chapters. The fourth edition includes numerous illustrations and data charts and tables, and includes improved procedures, processes, and information written with professional standards, but given a new improved bases so that the general student can read and understand the context far better then seen in the third edition. As well, the fourth edition includes valuable toxicity and physical properties data, and exhaustively describes each process in a new format and style not seen in the third edition. The fourth edition will become the standard for explosives science and technology. The book is a perfect reference for students, government agencies, government contractors, and enthusiasts.
