Off Grid Living: Create An Off Grid Water System Going off-grid is more than just a choice. It is something every individual should focus on in order to sustain and prepare themselves to face an unforeseen situation. Not only will it help you save your hard-earned money, but this simple move might end up saving your life as well. Every prepper out there should focus on going off-grid and attaining a self-sustainable lifestyle. In order to do so, you would be required to generate all the basic amenities on our own. Water, being one of the basic necessities is essential for our survival. You can t take this crucial step without creating your own water system. Take the assistance of this comprehensive guide and create an affordable, lasting, and efficient water system of your own. Instead of relying on a basic water supply, be a few steps ahead of everyone else and create your own water system. The guide consists of the following topic: Explaining rainwater harvesting system Creating a rainwater catchment system Constructing a gravity-fed water system Understanding the basic plumbing plan Different types of off-grid water filtering techniques, and more Not just covering different types of off-grid water systems, the guide has also explained several ways to filter water using off-grid techniques. You can simply create these efficient filters using everyday household objects. An equal emphasis on rainwater harvesting as well as gravity-fed water system has been made in this guide. This is to ensure that individuals belonging to different geographic locations can create their own water system...
