Random House USA Inc, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book. When we ask our kids, What d you do in school today? and they mumble, Nothin , they re telling the truth. Steve Perry gets it. He understands why some parents are panicked about what s going on in their kids classrooms, and how other parents, whose kids supposedly attend the good schools, still fear that their children are falling behind. As principal of one of the best performing schools in America - one that sends 100 of its mostly minority students to four-year colleges - Perry delights in proving the system wrong. In this solution-oriented manifesto, Perry covers the full range of issues holding back today s students. He shows parents and principals how to find great teachers (and get rid of the bad ones), how to make readers out of kids who hate to read, how to make the school curriculum thrilling rather than sleep-inducing, how to conduct an all-important education home audit, how to e-organize if school boards and administrators aren t getting the message, how to build a school of the future, and much more. The era of third-rate education is over. Push has come to shove!.
