Not illustrated. 1905 Excerpt: .solution, and a mixture of the thiosulphate and sulphite solution has been found superior to any other thus far tried. In making use of any of the above solutions the skin may be introduced directly from the bate after washing, or it may be prepared in any desired way. Thus, if a skin is only partly tanned by vegetable or mineral tanning material, the tanning may be completed in any of the above baths of chromic-oxide salts. SUBSTITUTE FOR SHELLAC. Carl Ludwig, of Schonberg, Germany. Patent No. 760,541, dated May 24, 1904. The product essentially consists of cheap resins soluble in alcohol, being mixed with oleic acid and saponified by boiling with alkali hydroxide and decomposed by acid. The precipitate obtained after being washed and dried is the new product, which can substitute shellac for the purpose of polishing. Further, the work with the new product is...

Reviews

Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.

-- **Dr. Deonte Hammes DDS**

Completely among the best ebook I actually have possibly read. It can be rally fascinating through reading through period of time. I am very easily can get a pleasure of studying a written ebook.
