My object in writing this book has been to give an account of Finnish sufficient to enable any one to understand the grammatical structure of the written language, and also to place before the student of philology an account of the chief phenomena it presents. In this latter respect I am conscious that my treatment is very inadequate on account of my inability to make myself acquainted with the many dialects spoken by the peasantry in various parts, the importance of which for the scientific history of the language cannot be overrated. The examples are taken chiefly from the Kalevala and Bible (which are generally cited by references), from the Suomen Kansan 182228 Sananlaskuja of Ahlqwist, from various modern works, and some from the dictionaries of Lonrot and Geitlin. The remainder have all been approved by natives, and will,...
