Octopus Publishing Ltd. Apr 2017, 2017. Buch. Condition: Neu. Neuware - Houseplants are hot, and creative interior planting is becoming increasingly easy to achieve. The new wave of unusual and dramatic indoor plants is as much about décor and statement as greenery. Used aesthetically, as a focal point and sculptural element in interior design, indoor gardening is not just about possessing or growing a plant, but about using it as an accessory combined with other objects to create a particular style and mood. In this much-needed book, Ian and Kara show you how to transform your home with plants and tells you which plants will work best where and how to care for them. From strikingly geometric terrariums to pretty hanging baskets, practical herb pots and colourful window displays, this book is packed full of exciting and gorgeous ideas. Specially commissioned photography by Nick Pope throughout proves that bringing the outdoors in really is the best form of interior design. 176 pp. Englisch.
