LOUISIANA CONSERVATIONIST, VOL. 12: FEBRUARY-MARCH, 1960 (CLASSIC REPRINT) (PAPERBACK)

FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Louisiana Conservationist, Vol. 12: February-March, 1960 Weather affects every living creature. And, while it seemingly makes life uncomfortable for most folks during a fishing trip, a shower can cause wonderous things to happen. Rain and accompanying temperature changes excite fish like pep-up pills transform an also ran into a derby winner. Fish go on a brief but frenzied feed ing spree when cooling showers lower temperatures. They seem to lose all sense of caution and pursue schools of bait fish into shallow waters with reckless abandon. At this time, they are not choosy in taste. They ll hit just about any surface lure in the vicinity. To catch these productive periods, check news papers and television weather forecasts which trace the movement of fronts across the country. A call to the local weather bureau will yield the exact time a disturbance is scheduled to pass your fishing spot. With a cold front, start fishing one or two hours before and during the storm. On a warm front, wait until it has passed and winds have shifted to a wester ly direction. Fishing a warm front seldom equals that of a cold front, but it s usually better than before the storm. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
