Excerpt from Outline of Investigations Into the Nature, Causes and Prevention of Endemic and Epidemic Diseases, and More Especially Malarial Fever, During a Period of Thirty Years: With a Claim to Priority in the Determination of the Chemical and Microscopical Characters and Changes of the Blood in the Various Forms of Malarial Paroxysmal Fever, and the Application of the Results of These Investigations to Medical Diagnosis If you treat the disease for worms alone, the real disease, climate fever, will march steadily on, and you may purge the child until the last worm is evacuated, and only hasten the fatal end, because you are working in conjunction with the disease, all the tendencies of which are depressing. If, on the other hand, you administer a gentle purgative mixed with a full dose of sulphate of quinia, and follow up with gentle stimulants and sulphate of quinia, the termination of almost every case will be favor able, and that, too, in a few days. We are persuaded that strict attention to these simple rules will be the means of materially diminishing the diseases and...
