It becomes an awesome publication that I actually have actually read. It really is written in simple terms and not difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Galas Grail investigates the controversial story surrounding the greatest spiritual and political cover-up of all time - a sensational secret of antiquity lost for centuries before being rediscovered in 1933 by Salvador Dali and his wife, Gala, not far from their home at Port Lligat. Learn the facts concerning their fascinating and surreal tale of betrayal, loss and redemption that exposes the meaning of Salvador and Gala Dalis encoded art and shared life mission. Read how a modern day group of online friends unexpectedly find a veritable treasure trove of encoded masterpieces while on their quest to understand Dalis surrealistic motifs as they travel through the annals of art history, researching the clues left behind in Gala Dalis Tarot deck. What shared model did Raphael, Leonardo, Caravaggio and other great masters have in common. These artists and more were privy to the same unorthodox knowledge, a forbidden language hinted at on canvas and barely acknowledged to exist until Salvador Dali burst upon the 20th century art scene, leaving in his wake a trail of signposts embodied in his art and writings - all waiting to be followed. The greatest heresy of all time was also seen in the ecstatic visions of Saints Anthony, Jerome, and Theresa, much to the dismay of Rome, whose hierarchy has always been bent on silencing a prophetic power whose voice cannot be stilled. Enter the world of the formerly...
