Reviews

Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.

CLAWS OF LIFE (PAPERBACK)

RAZORBILL, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. The Teddycats made it out of Cloud Kingdom with not even a scratch, and it's all thanks to our hero, Bill. But adjusting to life in Horizon Cove isn't exactly easy, and the fact that the Teddycats know next to nothing about surviving in the wild doesn't help. Everyone's looking to Bill for guidance, but he's not exactly a wilderness expert himself. So what's a young Teddycat to do? Lucky for Bill, the Teddycats aren't the only animals in Horizon Cove: their new neighbours are a flock of odd but hospitable tropical birds who call themselves the Pets. The Pets are more than happy to help The Teddycats adjust to life in the jungle. They even agree to be their pampered new friends' survival coaches until the rainy season starts and they have to fly off to a drier climate. But then the telltale signs of rains come and go, and the Pets are nowhere near ready to leave. Bill doesn't want to rush his new friends, but the Teddycats could really use some more space to build dens permanent enough to withstand the rains. So he decides to investigate. And what he discovers is more chilling than the contents of even the meanest poacher's hunting bag. The Pets aren't who - or what - they say they are. And if Bill can't convince the Teddycats not to hang around any longer to find out the whole truth, they'll lose more than just their home. They'll lose everything.
