University of Minnesota Press, United States, 2006. Paperback. Condition: New. Language: English . Brand New Book. This work helps understanding the legacy of U.S. imperialism through Asian American culture. At the beginning of the twentieth century, soon after the conclusion of the Spanish-American War, the United States was an imperialistic nation, maintaining (often with the assistance of military force) a far-flung and growing empire. After a long period of collective national amnesia regarding American colonialism, in the Philippines and elsewhere, scholars have resurrected the power of empire as a way of revealing American history and culture. Focusing on the terms of Asian American assimilation and the rise of the model-minority myth, Victor Bascara examines the resurgence of empire as a tool for acknowledging - and understanding - the legacy of American imperialism. Model-Minority Imperialism links geopolitical dramas of twentieth-century empire building with domestic controversies of U.S. racial order by examining the cultural politics of Asian Americans as they are revealed in fiction, film, and theatrical productions. Tracing U.S. economic and political hegemony back to the beginning of the twentieth century through works by Jessica Hagedorn, R. Zamora Linmark, and Sui Sin Far; discourses of race, economics, and empire found in the speeches of William McKinley and William Jennings Bryan; as well as L. Frank Baum's *The Wonderful Wizard of Oz* and other texts, Bascara's innovative readings uncover the repressed story of U.S. imperialism and unearth the demand that the present empire reckon with its past. Bascara deploys the analytical approaches of both postcolonial studies and Asian American studies, two fields that developed in parallel but have only begun to converge, to reveal how the vocabulary of empire reasserted itself through some of the very people who inspired the U.S. imperialist mission.
