Methanol Press, United Kingdom, 2008. Paperback. Condition: New. Language: English . Brand New Book. Jeff Scott serves up yet another portion of methanol inspired lunacy to satisfy your speedway craving appetite with his latest book CONCRETE FOR BREAKFAST. Although some view speedway as little more than a fairground sideshow attraction, Scott continues to validate the sport s authenticity as he celebrates the romance of its racing, the bravery of its competitors, and the idiosyncrasies of its partisans on and off the track. An equal opportunity offender, motorcycle speedway thumbs its nose at the nanny-state bureaucrats of Health and Safety as well as the ubiquitous corporate media that enlists the drama and daring of the sport to validate its mission of spin, profit, and mediocrity. But, of course, any sport composed of individuals who willingly embrace the physical and mental challenges of speedway must by definition be considered daring, maverick and subversive. Consider the physical challenges of speedway: riding a high powered motorcycle without brakes or gears, steering only by balance, gravity, and gyroscopic luck four times round a shale covered track at speeds exceeding 60 miles per hour. The bike itself, a huge single piston 500cc machine, without suspension, powered by methanol, roars its sweet hymn to oblivion to those who ride and to those who watch. The mandated helmets and kevlar are the merest genuflection in the direction of self-preservation. In short, the entire enterprise constitutes a complete commitment to barking madness. Let Jeff Scott introduce you to this most anachronistic of sports in 21st Century Britain. If you do you will eventually succumb to the spectacle, the people, and the journey across its peculiar landscape and geographies. You will learn the rhythms of the unvarying repetitiousness of the team meeting format as well as the uniqueness of each...
