WESSEX ASTROLOGER LTD, United Kingdom, 2011. Paperback. Condition: New. Language: English . Brand New Book. Whether as muse, silver goddess, nourishing mother, priestess, maid, siren or witch, the influence of the Moon on our personality and perception is one of the least understood factors in our daily lives. Luna has fascinated, inspired, and frightened us since the dawn of human history yet She of the Three Faces is the clue to our most emotional and instinctive selves. This new work by Paul F. Newman probes the subtle meanings of habit and the irrational that the astrological Moon conveys and how we can comprehend it and make use of it for our benefit and security. The triple aspect of Luna is treated as paramount with examples of the effect of New Moon, Full Moon and Old Moon in the monthly round. There is also a new way of grasping the consequence of New and Full Moons according to their declinational hemisphere, and the difference between summer and winter moons. While all computational aspects of the Moon are covered (phases, cycles, moon mansions, progressed moons, magic squares etc.) along with the meaning of how these things affect us, it is the poetic side of Luna that equally informs our approach. A substantial part of the book also covers the Black Moon Lilith, (the Moon at apogee), with new insights into this lady of noire and her astrological resonance. From the fall of dew to the markings on a cheetah s eyes, there is more to the Moon than we know.
