

Nonlinear propagation of es perturbation modes in degenerate plasma

Filesize: 4.81 MB

Reviews

*A high quality ebook as well as the typeface employed was exciting to read. It is actually loaded with wisdom and knowledge You wont sense monotony at at any moment of the time (that's what catalogues are for concerning when you request me).

NONLINEAR PROPAGATION OF ES PERTURBATION MODES IN DEGENERATE PLASMA

To read **Nonlinear propagation of es perturbation modes in degenerate plasma** eBook, you should follow the button listed below and download the ebook or have accessibility to other information which might be in conjunction with NONLINEAR PROPAGATION OF ES PERTURBATION MODES IN DEGENERATE PLASMA book.

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Nonlinear propagation of electrostatic perturbation modes in relativistic degenerate dense plasma | A theoretical investigation has been made on the nonlinear propagation of electrostatic perturbation modes in an unmagnetized relativistic degenerate dense plasma without and with charged dust grains. The electron-ion plasma (plasma without dust) mainly contains relativistic degenerate electrons and ions, while the dusty plasma (plasma with dust) mainly consists of relativistic degenerate electrons and ions and negatively or positively charged static dust. The reductive perturbation method, which allows us to derive the Korteweg-de Vries (K-dV) and Burgers equations, has been employed. The nonlinear structures (viz. solitary and shock waves), which are formed due to balance between nonlinearity and dispersion (in case of solitary structures) or dissipation (in case of shock structures), have been theoretically analyzed for certain ranges of plasma parameters in case of both non-relativistic and ultra-relativistic limits. The results, which have been found from these investigations have been pin-pointed in the end of each chapter. The implications of the results in some astrophysical compact objects have been briefly discussed. | Format: Paperback | Language/Sprache: english | 116 pp.
