REASONING WITH NUMBERS: MASTERING THE THINKING SKILLS THAT MAKE MATH FUN AND EASY TO LEARN

Maven Publishing, Canada, 2012. Paperback. Book Condition: New. 214 x 138 mm. Language: English . Brand New Book ***** Print on Demand *****.Fine-tune your numerical mindset with a quantitative review that serves as a tool for perceiving probability in a new way. Whether you re a high school student, college student, or a test-prep candidate, this book s wealth of explanations and insights makes it a perfect learning companion. Enjoy the benefits of your own short course in basic probability: *Be able to think conceptually by understanding how key problems fit within the main topics of probability, permutations, combinations, and enumerations. *Master basic probability using a simple flowchart to identify the correct formulas. *Understand when to add probabilities and when to multiply probabilities. *Be able to distinguish between events that are independent versus not independent and events that are mutually exclusive versus not mutually exclusive. *Grasp key differences between permutations and combinations and look for key words such as arrangements or selections to indicate the correct problem type. *Solve tricky permutation problems that involve repeated letters or numbers. *Approach probability problems with a newfound confidence and competency. This book is focused on those thinking skills that are essential for mastering basic probability. Such thinking skills make it much more likely that a person will be able to understand the how and why of problem solving, approach the subject in a conceptual way, and grasp those key principles that act as themes to bind related problems. These skills combine the science of math with the art of numbers. Author s bio: Brandon Royal (CPA, MBA) is an award-winning writer whose educational authorship includes The Little Green Math Book, The Little Blue Reasoning Book, The Little Red Writing Book, and The Little Gold Grammar Book.
