Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Bulletin of the New Hampshire College Agricultural Experiment Station, 1899: Numbers 60 to 68 and Eleventh Annual Report From our experience with the above named varieties, I be lieve we can depend upon almost any variety that is desirable out of doors, to be equally valuable under glass. Moreover, if proper heat, moisture, and a rich soil be given, a crop will mature in the greenhouse in a shorter time than in the garden. In the forcing-house with the exception of light we can have almost ideal conditions. With the use of the electric light, even the cloudy weather of winter can be overcome to a degree. For other varieties of sweet corn, we would ask the reader to consult bulletin No. 51. Two not in the test, which we believe are worthy of consideration for growing under glass are Early Beverly and Eastman s Early. Both were early and desirable in the garden. If sweet corn proves to be a successful forcing-house crOp, doubtless as with the muskmelon, tomatoes, cucumbers, etc., we can in a few years develop varieties that will be better adapted for this purpose than any of our present ones. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left...
