## INVESTIGATION OF THE BEHAVIOR OF R/C BEAMS WITH CONSTRUCTION JOINTS

Condition: New. Publisher/Verlag: Noor Publishing | Construction Joints | Construction joints are stopping places in the process of placing concrete, and they are required because in many structures it is impractical to place concrete in one continuous operation. The amount of concrete that can be placed at one time is governed by batching and mixing capacity and by the strength of the formwork. A good construction joint should provide adequate flexural and shear continuity through the interface. In this study,...
