Reviews

These sorts of pdf is the greatest ebook offered. We have study and that i am sure that i will going to study once more once more in the future. Its been printed in an remarkably simple way and it is only after i finished reading through this pdf through which in fact transformed me, affect the way i believe.

(Mr. Dashawn Block MD)

25 BIG IDEAS IN SCIENCE

Oneworld Publications. Paperback. Book Condition: new. BRAND NEW, 25 Big Ideas in Science, Robert Matthews, From the Big Bang to the Theory of Everything, Sunday Telegraph Science Correspondent Robert Matthews takes us on a tour of twenty-five of the biggest ideas in modern science. Along the way, he explains how the theory that proved Einstein wrong might one day make teleportation possible; how the principles of mathematics could be used to broker peace treaties; and why the key to understanding some of the deepest mysteries of the universe could be linked to the barcode on our groceries. Matthews uncovers the major personalities in the history of science, from World War Two code breaker Alan Turing and his test for artificial intelligence, to modern scientists such as Richard Dawkins and Stephen Hawking. He explains key terms throughout and each 'big idea' also features a timeline charting the key discoveries.
