Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Commercial Geography: An Intermediate Text-Book The requirements of modern geographical method have been kept carefully in view, and an attempt has been made to harmonise regional treatment with the necessary consideration of political units. Questions, which have been added at the end of each chapter, should provide a useful basis for revision and many others of a similar nature will occur to the teacher. The free introduction of maps and diagrams is not intended to supersede the atlas, which should be always by the student's side and he should be encouraged to trace tendencies towards change by constant reference to the various Statistical Abstracts issued by the Board of Trade. Such exercises make no inordinate demand upon either time or ability, and are of the utmost value in conjunction with a rational text-book from the educative point of view.
