Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Performance Norms for Thirteen Tests Although the total of children tested is less than for the former bulletin, the number of public school children examined to establish the norms is greater, 314 as compared with 180. It is of interest to compare the work of these normal public school children, all of whom are at age for their grades, with that of the unselected groups in the four orphan asylums. The work herein reported occupied ten months in the years 1915-1916. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
