## Fading Effects on Vertical Handover

By Arefin, Md. Taslim / Abukar Mohamed, Osman

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | An Analysis in Heterogeneous Network | This study has analyzed the effect of shadow fading and used extensive geometric and probability analysis in modeling the coverage area of a WLAN cell. Thus, presents a realistic and novel model with an attempt to ensure optimal handover as a mobile node (MN) traverses a heterogeneous wireless environment. In the proposed HNE approach, the dwell time is being estimated along with the threshold values to ensure an optimal handover decision by the MN, while the probability of unnecessary handover and handover failure are kept within tolerable bounds. Simulations have been carried out to show the behavior of the proposed HNE and HTCE models considering five performance attributes (Cost, Delay, Data rates, Dwell Time, QoS) Results were validated by comparing the proposed models with existing works. | Format: Paperback | Language/Sprache: english | 84 pp.

### Reviews

*This pdf is really gripping and exciting. Yes, it is actually perform, nevertheless an amazing and interesting literature. I am just effortlessly can get a pleasure of looking at a published pdf.*

-- **Tony Dickens**

*A must buy book if you need to adding benefit. I could possibly comprehended every little thing using this created e publication. I found out this book from my dad and i encouraged this pdf to understand.*
