Reviews

These sorts of book is the perfect book accessible. It is amongst the most amazing book i have got read. I found out this ebook from my i and dad advised this book to find out.

(Mr. Mustafa Sanford IV)

STUDIO ONE FOR ENGINEERS AND PRODUCERS

Hal Leonard Corporation. Paperback. Book Condition: new. BRAND NEW, Studio One for Engineers and Producers, William Edstrom, "Studio One for Engineers and Producers" is specifically designed to help engineers and producers who are already comfortable using another DAW software platform, make the transition to Studio One. Text, illustrations, and video examples (on the accompanying DVD-ROM) demonstrate the creative, practical, and technical benefits provided by PreSonus in this modern, well-developed, flexible, and user-friendly application. All instruction is presented in straightforward and simple language that gets right to the point, taking into consideration the need for amateurs, home studio owners, and commercial professionals to get up to speed very quickly. This "Quick Pro Guide" starts by relating Studio One's layout and functionality to other common DAWs, to identify the most important similarities and difference. It then follows the creative process through the normal progression of a modern recording/production, to help the reader get to work as soon as possible. This new cross-platform (Mac/PC) DAW is built from the ground up for speed, efficiency, and power; "Studio One for Engineers and Producers" is the perfect tool to shorten the pathway from installation to inspiration!.
