Brand New Book ***** Print on Demand *****.Excerpt from Certification Plan Significance and Scope: Its Application to Federal Specifications and Commercial Standards An analysis of the status of the making and the utilization of specifications reveals the fact that many purchasing officers are using specifications Which are such in name only, and that many excel lent specifications well recognized throughout indusa try are not being Widely used at the present time, attributable largely to the inability of most pur chasers to determine Whether or not commodities correspond to the specification requirements. A great impetus to the p opularizing of the use and unification of real specifications could be given by eliminating this disadvantage to the small-quantity contract purchasers.
