

The Us Book: Teaching Languages - To: Nonverbal Thinkers (Paperback)

By Michael S Monje

Autonomous Press, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Michael s first collection of poetry brings together pieces that were originally published as if they were separate poems, revealing for the first time the exact order of reading and narrative structure of the larger work she has been working on. If you have seen her work in The Spoon Knife Anthology, Barking Sycamores, on the Shaping Clay blog, or live in person, then this collection will bring those poems into sharper focus by setting them side by side with one another to create a larger narrative and reflective structure. If you have been following her fiction, then this provides the backstory to the creation of both the Clay Dillon and Lynn Vargas universes. However you come by it, though, hear what the first readers of the volume have been saying: The revolution need not be televised because it is here, in Michael Scott Monje, Jr. s mic-dropping challenge to the entrenched boundaries of rhetoric, research, and writing. Bring your best game to this book. Brush up on your Battlestar Galactica, rap lyrics, music history, art history, literary theory, psychology, coding and cryptology...
