Reviews

It is one of the best publications. It is definitely simplistic but exciting in the 50% in the ebook. I am very happy to let you know that this is basically the greatest publication I have ever gone through within my own existence and could be the greatest PDF for ever.

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Gunnery: An Elementary Treatise; Including a Graphical Exposition of Field Artillery Fire That part Of the introduction entitled Study and the Value Of Theory was inserted at the very beginning of the book in the hope that the admonitions of the great soldiers therein set forth might arrest the attention and at once arouse the interest of officers inclined to look with impatience upon all forms of professional theory. It was thought that such officers would at least be inspired to exercise greater diligence in the study Of the fundamental principles Of their own branch Of the service. If the author has here and there entered upon the field of tactics, he must be pardoned, for it has only been done to emphasize technical points which tactical considerations frequently involve.
