MAGNETIC NANOTUBES AS MAGNETIC RESONANCE CONTRAST AGENTS

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Synthesis, Characterization, Cytotoxicity and Cellular Uptake | An increasing interest in medical application of nanotechnology has heightened the need for synthesis of nanoparticles with well-defined dimensions and multifunctionalities. Based on template synthesis method, magnetic nanotubes (MNT) were successfully prepared with precise morphology control. The MNTs have super magnetic properties, including high saturation magnetization and magnetic resonance relaxivities. Cytotoxicity and cellular uptake of SNTs were investigated for primary and cancer cells. The nanotubes...

Reviews

Basically no words to describe. We have read through and i also am sure that i am going to going to read once more once again later on. You may like just how the article writer compose this publication.

-- **Mrs. Jane Quitzon DDS**

If you need to adding benefit, a must buy book. It can be loaded with wisdom and knowledge I discovered this ebook from my dad and i encouraged this pdf to discover.
