## NETWORKED SERVICES AND APPLICATIONS - ENGINEERING, CONTROL AND MANAGEMENT : 16TH EUNICE/IFIP WG 6.6 WORKSHOP, EUNICE 2010, TRONDHEIM, NORWAY, JUNE 28-30, 2010, PROCEEDINGS

Springer-Verlag Gmbh Jun 2010, 2010. Taschenbuch. Condition: Neu. Neuware - The EUNICE (European Network of Universities and Companies in Information and Communication technology) mission is to jointly develop and promote the best and most compatible standard of European higher education and professionals in ICT by increasing scientific and technical knowledge in the field of ICT and developing their applications in the economy. The EUNICE Workshop is an annual event. This year the workshop was sponsored by IFIP TC 6 WG 6.6: Management of Networks and Distributed Systems. Eight years ago, the seventh edition of the EUNICE workshop took place in Trondheim with the topic 'Adaptable Networks and Teleservices.' Since then 'adaptability' has become a topic which is found in most ICT conferences. The concept teleservices, which is a telecommunication domain concept from the 1980s, has been lifted out of the telecom community and is now found with new and sometimes mysterious names such as service-oriented architecture and cloud computing. 273 pp. Englisch.
