

Web Metrics

By Kapil Sharma

GRIN Verlag GmbH. Paperback. Condition: New. This item is printed on demand. 72 pages. Dimensions: 8.3in. x 5.8in. x 0.2in.Masters Thesis from the year 2013 in the subject Computer Science - Software, grade: A, , course: Master of technology, language: English, abstract: World Wide Web is a source of enormous information and has massive influence on our lives. A large number of websites nowadays are designed without sufficient resources and professional skills. Therefore evaluating quality of a website is a very important issue, further for success of any web; quality is one of the most important attribute. Various guidelines, tools and methodologies have been described by many authors to maintain the quality of a websites but their implementation is not much clear. Web metrics are used to measure various attributes of websites quantitatively and can be used to evaluate the quality of a website. So it is important to assess the website to enhance the quality of websites and web development process In our research we calculated twenty web page metrics using an automated tool WEB METRICS CALCULATOR developed in ASP. NET language. We collected data from websites of various categories from pixel awards of year 2010, 2011 and 2012,...

Reviews

These types of book is the perfect pdf available. I actually have study and that i am sure that i will planning to read through again again in the foreseeable future. Its been designed in an exceedingly basic way which is simply soon after i finished reading through this publication in which basically changed me, modify the way i believe.

-- Laney Morissette
