FUNDAMENTALS OF PREDICTIVE TEXT MINING (HARDBACK)

Springer London Ltd, United Kingdom, 2010. Hardback. Condition: New. 2010. Language: English . Brand New Book. One consequence of the pervasive use of computers is that most documents originate in digital form. Widespread use of the Internet makes them readily available. Text mining - the process of analyzing unstructured natural-language text - is concerned with how to extract information from these documents. Developed from the authors highly successful Springer reference on text mining, Fundamentals of Predictive Text Mining is an...
