It should be added further that, since each of these sets is a complex, a separate study has been made of the errors occurring in each of the types of operation found in the sets. Thus the study of Set H is divided into two parts, the one concerned with the addition, the other with the subtraction, of fractions of like denominators. The study of Set O is consequently divided into four parts, dealing respectively with addition, subtraction, multiplication, and division of fractions of unlike denominators. FRACTIONS OF L1KE DENOMINATORS One hundred errors made in the addition of fractions of like denominators by eighth-grade pupils were analyzed and thrown into the five categories which appear in Table XXVIII. In dealing with these simple fractions the most frequent error is found to be that indicated by the reproduction in section a, Diagram 18. The...
