In the first section the author sets the framework by explaining terminology in the context of technology and innovation as well as the market for technology companies. In addition, general issues regarding technology companies and their market environment are discussed. To obtain a means of evaluation, then issue of competitiveness of high technology concerns in the current market situation is examined in general. Competitiveness is discussed and explained by reviewing a substantial amount of literature along a framework developed by Feurer and Chaharbaghi. The chapter culminates in developing an approach to sustaining competitiveness for high technology concerns. As the aspects that determine competitiveness cover a broad spectrum, this section is the main part of the paper. Once an approach to sustaining competitiveness has been developed the third and last part examines...
