CLUSTERING, CLUSTER INFERENCE AND APPLICATIONS IN CLUSTERING

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Applications to the Analysis of Gene Expression Data | Multivariate mixture models provide a convenient method of density estimation and model based clustering as well as providing possible explanations for the actual data generation process. But the problem of choosing the number of components in a statistically meaningful way is still a subject of considerable research. Available methods for estimation include, optimizing AIC and BIC, estimating the number through nonparametric maximum likelihood,...
