# Enabling Design

By Us Army Jonathan B Gill

Createspace Independent Publishing Platform, United States, 2012. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Current operations indicate that improvements are warranted within our Battle Command (BC) planning method to support complex and ill-structured problems. Several modified approaches have been reviewed and synthesized into a general theoretical method currently addressed as Design. A practice of Design is necessary to facilitate the employment of Design theories. Design analysis so far has focused more upon the theory and less upon the actual practices of Design. Guidelines for conducting Design within Army forces do not exist within doctrine or SOP. There are no descriptive guidelines for the organization (team size, roles, and responsibilities), management (time, workflow, artifacts), or support environment (infrastructure and tools) of the design team. The Design practices identified within this paper address some of these gaps and can provide a baseline for additional guidelines or for tailoring by an operational force Design Team. This paper provides recommendations on the practice of Design. It provides these recommendations as a contribution to the evolution of the US Army Battle Command methodologies in tactical and operational decision-making. The paper strives to identify techniques...
