Excerpt from Study of Local School Units in North Carolina: By the State Department of Public Instruction in Cooperation With the United States Office of Education, Washington, D. C The purpose of the survey in North Carolina was: (1) to trace the historical growth and development of public education in the State from the local standpoint; (2) to determine the status of present educational opportunities; and (3) to offer suggestions and recommendations for the reorganization and improvement of existing facilities. A wealth of material bearing on the total school situation of the State has been collected; and statistical tables and spot maps, showing schools and school population have been prepared for a majority of the counties of the State. It is regretted that the Survey had to be brought to a close before all counties were completed. Much of the material assembled, especially that bearing upon local school situations, could not be printed in this report. There is presented, however, brief statements and statistical tables concerning the public schools of the State as a whole, and recommendations for their improvement. As representative of the present local status of schools, spot maps and descriptive expositions are given for several counties. Material of this kind will be made available to local school authorities for the other counties covered by this Survey. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
